

Chassis Core Managed Switch - DC Power Module

Specifications

Model	GNT-PD350
Power module type	Hot-swappable DC power module
Input	Input Voltage DC range: 36~72V
	Input current: 20A max
Output	Output Voltage DC range: 12V
	Output current: 45A max
	Rated output power: 350W
Operating temperature range	-10°C 50°C
Non-operating temperature range	-40°C 70°C
Operating Humidity	5% ~85% non-condensing
Non-Operating Humidity	5% ~95% non-condensing
Physical Specifications	185mm*73.5mm*39mm
